B-HT 920 Antagonizes Rat Neophobia in the X-Maze Test: a Comparative Study with Other Drugs Active on Adrenergic and Dopaminergic Receptors. *F. Ferrari, P. L. Tartoni and V. Mangiafico* 7

Time Course of the Anticonvulsant Action of Clonazepam during Ontogenesis in the Rat. *H. Kubová and P. Mareš* 15

Effects of Aniracetam on One-Trial Passive Avoidance Tests and Cholinergic Neurons in Discrete Brain Regions of Rats. *K. Toide* 25

Bromocriptine-Induced Hypothermia: D-2 Receptor Involvement. *M. R. Zarrindast and M. Mahmoudi* 38

Release of [^{3}H]- and Endogenous GABA from Slices of the Rat Medulla Oblongata: Modification by 3-Mercaptopropionic Acid, Nipecotic Acid and Diaminobutyric Acid. *M. Kihara, H. Amano, Y. Misu and T. Kubo* 50

Nifedipine Reversal of Decreased Serotonin Metabolite Levels During Morphine Withdrawal. *M. I. Colado, P. Lorenzo and M. I. Martín* 61

Blood Pressure and Heart Rate Responses to Intracerebroventricular Infusion of Sodium Chloride Solution in Normotensive and Hypertensive Rats. *E. Appenrodt, A. Brattström, V. Moritz and W. Schälike* 68

Effect of Nisoldipine on the Oxymyoglobin Level of Myocardial Cells in Hypoxic, Perfused Rat Hearts. *A. Hara, H. Matsumura and Y. Abiko* 78

pH-Dependent Effects of Bepridil on Ca^{2+}-Extrusion across Rat Heart Sarcolemma. *F. Th. M. Van Amsterdam and J. Zaagsma* 90

Effects of Niguldipine, a New Dihydropyridine Calcium Antagonist, on Regional Blood Flow, Cardiac Performance and Myocardial Metabolism in Anaesthetized Open-Chest Dogs. *G. Fischer, W. Schneider, G. Krumpl, J. G. Grohs and G. Raberger* 96

Cardiovascular Action of Penta-O-ethylquercetin in the Rat. *S. L. Cheav, A. F. Prigent, M. Picq, O. Foussard-Blanpin and H. Pacheco* 108

Effects of Chronic Treatment with Verapamil on Adrenoceptor-Mediated Contraction of Rabbit Aorta. *J. F. Aceto and R. J. Tallarida* 125

Comparative Vasodilator Effects of Magnesium Salts on Rat Mesenteric Arterioles and Venules. *A. Nishio, A. Gebrewold, B. T. Altura and B. M. Altura* 139

Stereospecificity of β-Adrenoceptor Blockade and Renal Vasodilatation by Tertatolol. *J. F. M. Smits, H. H. M. Zeegers and H. A. J. Struyker-Boudier* . . . 164

Sodium Regulation of α_2-Adrenoceptor-Agonist Interactions in Renal Membranes of Young and Old Dahl Rats. *S. M. Periyasamy* 172

Prejunctional β-Adrenoceptors in the Isolated Perfused Rat Kidney: A Comparative Study of the β-Blockers Tertatolol and Propranolol. *T. J. Verbeuren, L. L. Zonnekeyn, J.-F. Prost and A. G. Herman* 183

Factors Mediating a Regional Difference in Vasorelaxing Effects of Human Natriuretic Polypeptide in Dogs. *M. Kawanishi, A. Hayakawa, K. Taki, Y. Shimada and N. Ishikawa* 198

Propylbenzilylcholine Mustard Discriminates Between Two Subtypes of Muscarinic Cholinoceptors in Guinea-Pig Taenia Caecum. *I. Takayanagi, T. Hisayama, Y. Kiuchi and H. Sudo* 210

Is *In Vivo* Dissociation Between the Antipropulsive and Antidiarrheal Properties of Opioids in Rats Related to Gut Selectivity? *A. A. H. P. Megens, L. L. J. Canters, F. H. L. Awouters and C. J. E. Niemegeers* 220

Differential Effects of Nebivolol, Atenolol and Propranolol on Heart Rate and on Bronchoconstrictor Responses to Histamine in the Guinea-Pig. *F. De Clerck, L. Van Gorp, W. Loots and P. A. J. Janssen* 230

Lack of Effect of Gold Salts on Acetylcholine or Histamine Contraction of Canine Tracheal and Bronchial Smooth Muscle. *D. K. Ledford, Y. Sakamoto, C. O'Connor, K. Krzanowski, R. F. Lockey, J. B. Polson and J. Krzanowski* 237

Radiation Exposure and the Effect of Piroxicam and Diclofenac on Mediator Release from Isolated Guinea-Pig Lung. *M. T. Khayyal, H. Roushdy, S. Saleh, M. El-Ghazaly, S. Kenawy and M. A. El Mazar* 247

Some Aspects of the Pharmacology and Physiology of the Ascaris Suum Muscle. *G. Onuaguluchi* 264

Pharmacological Studies on the Hypoglycemic Effect of 7,8-Dihydro-2-(4-Methyl-piperazinyl)-4-(1-Pyrrolidinyl)-6H-Thiopyrano [3,2-d]Pyrimidine Dimaleate (MTP-1307), a Novel Hypoglycemic Agent. *Y. Kunoh, H. Ogawa, M. Nagasaka, H. Asai, A. Iguchi, A. Niki and N. Sakamoto* 276

Rioprostil, a New Prostaglandin E_1 Analogue does not Affect Glucose Homeostasis in Healthy Volunteers. *H.-G. Eichler, A. Korn, J. A. Businger and W. K. Waldhäusl* 288

Belgian Society for Fundamental and Clinical Physiology and Pharmacology . . . 293
